Now is the time to buy your Maytag—the washer you've always wanted—the most desired washer in the world. Never has Maytag been able to offer the public such a combination of inducements as it does today.

Our standard models have been improved and new models added to the range for you to choose from. Our floors are free of trade-in machines and today we can give you a more liberal allowance on your old washer than we are likely to be able to do again in the future. Our terms have been arranged to suit every purse and our prices are the lowest in Maytag history.

Buy now—don't wait. Everything has been done to make it easy for you to have the world's finest washer in your home without any more waiting.

These Canadian Built Washers invite any comparisons you may wish to make with any other washer—foreign or domestic, on the market. The Maytag is the finest money can build or brains devise. Over 2,000,000 women testify to Maytag's long life and trouble free service.

See the new Maytags now on display in our show-rooms or phone for a free demonstration in your own home. If the Maytag doesn't sell itself—don't keep it.

Check these exclusive features; Tub—strong as a battleship—with the counter-sunk Gyra-ator and its dirt-removing sediment zone; the mechanically perfect, steel cut and heat treated oil-packed silent drive; the SAFETY divided water-remover—low swung and balloon rolled; the vibrationless motor. Don't buy until you've seen the Maytags.
